COVID-19 Vaccine Codes

Preview Posting of COVID-19 Vaccine Codes and Crosswalk for Currently Authorized Vaccines and Anticipation of Potential Vaccine Availability under Emergency Use Authorization (EUA)

Note: Codes will become effective only upon EUA issuance or BLA licensure of COVID-19 vaccine(s) by the Food and Drug Administration (FDA)

The codes and crosswalk for candidate COVID-19 vaccines will be posted for preview in phases as the late-stage clinical trials for candidate vaccines progress. Additional vaccines or codes will be added to this list as they enter late-stage clinical trials or prepare applications for FDA authorization.

The following downloadable table provides a summary of the currently authorized vaccine codes and a preview of the vaccine codes that will be activated if the FDA authorizes use and ACIP votes to recommend the candidate vaccines.

To support this effort, the CDC is working closely with data partners responsible for the creation and distribution of vaccine codes and drug compendia publishers to coordinate the release of codes in advance of potential EUAs to enable systems and users that require these codes to prepare in advance.

The codes for these vaccines are also included in the vaccine code set files unless otherwise noted in the table. Additional code details and fields values are included in the vaccine code sets.

American Medical Association (AMA) COVID-19 CPT® vaccine product and administration codes are now available on the AMA web site. The CPT vaccine product codes are included in the Preview COVID-19 table and the CDC vaccine code sets. You can access further information regarding the COVID-19 CPT codes, as well as the associated coding guidance, using the following link:

COVID-19 vaccine codes and crosswalks are provided in anticipation of potential vaccine availability under an approved Biologics License Application (BLA), Emergency Use Authorization (EUA), or as a potential vaccine submission for EUA (Pre-EUA). Codes will become effective for US vaccine administrations only upon EUA issuance and/or BLA approval of COVID-19 vaccine(s) by the FDA. All CVX codes are associated to the new Vaccine Group "COVID-19." CPT codes shown are product codes. CPT administrative codes for doses are available on the AMA website. CPT product codes are added as the AMA approves and makes them available.

The following vaccine NDCs and associated tradenames have been either submitted for FDA authorization (Pre-Authorization) or have been authorized or approved by the FDA under EUA or BLA License and may be included in FDA NDC files and Structured Product Labels (SPL). These vaccines are listed separately because they represent NDCs that will not be manufactured or made available in the near term even if authorized.
